HEALTH INSURANCE INSTITUTE

How insurance people make health care protection a reality for Americans of all ages

A few months ago a man of 97 bought a health insurance policy.

And right this moment, a newborn baby is being covered under his father's policy.

Every day, millions of people of every age enjoy the benefits of good health care protection.

That's how America's insurance people have responded to the need. Name an important step forward in health insurance and you can trace it directly to insurance people.

They were first to introduce major medical policies which protect against the costs of prolonged sickness and serious accidents.

They originated loss-of-income policies which provide a regular income when a breadwinner is disabled and cannot work.

They led in the development of group insurance plans, which today help pay the doctor, hospital and surgery bills for millions of working people and their families.

They offer a wide range of plans which give people over 65 substantial health care protection.

And their search for new and better ways to meet the health care needs of families never ends.

Today, because of the knowledge and experience of insurance people, more families than ever are protected better than ever through voluntary health insurance provided by America's insurance companies.

HONDA

It's like chess, at 200 mph.

Formula 1 Racing is a blindingly fast sport. Races are often decided by split-second strategy or an all-right move made in the moment. For our drivers to see engines, it's more important than ever. We're more interested in building reliable than machines. Our race program develops our engineers, teaches them how to overcome and how to do things quickly and efficiently. In short, how to think like a Honda engineer. So, when we see a race, it's proof our thinking also surpassed the competition.

HUNTER

Chess or checkers?

IT'S A MATTER OF CHOICE! Because preferences differ, no game in the world can be everybody's favorite. Neither can any one brand of whiskey taste best to everyone. That's why we take the conservative attitude that Hunter's delicately different flavor will appeal to a great many men, but not necessarily to all men. It's a matter of choice!

We do sincerely believe you should try this fine whiskey. Try it because it is different. Try it and form your own opinion!

HUNTER

Outstanding for Excellence

This magnificent chess set is solid ivory, bound and figures alike. It was painstakingly carved around 1650 by Finnish craftsmen. The playing pieces represent, in amazingly detailed and lifelike miniature, a 17th century army general, his followers and his enemies. Valued at \$10000, this masterpiece is an example of almost forgotten artistry—truly outstanding for its excellence.

OUTSTANDING among the fine whiskeys of the world, Hunter has been unsurpassed for 93 years. Superbly smooth and magnificently flavorful, no finer whiskey has ever passed your lips. No other American whiskey has been so famous for so long!
